34 EXPLANATION

35 The inclusion of this explanation does not constitute agreement with

1           the explanation's substance by the members of the general assembly.

2       This bill requires an E911 service provider to provide  
3 addresses and telephone number information concerning its  
4 subscribers served by the E911 system to the director of the  
5 department of homeland security and emergency management to use  
6 in the mass notification and emergency messaging system. The  
7 bill adds the director of the department of homeland security  
8 and emergency management and local emergency management  
9 commissions to the list of persons and entities that must use  
10 this information solely for the purposes of providing E911  
11 emergency telephone service or providing mass notification and  
12 emergency messaging services. The bill eliminates language  
13 limiting use of this subscriber information to information  
14 about a subscriber that consents to the services. Current  
15 law provides that this information is confidential and that a  
16 violation of such provisions is a simple misdemeanor.  
17       The bill replaces the term "911 call alert" with "mass  
18 notification and emergency messaging services".
